

The Italian Chapter of IEEE Magnetics Society wants to reward scientific activity performed by young researchers in the field of magnetism.

With this aim, the Chapter presents, for the second year, an award addressed to a researcher who has published outstanding research about magnetism and related topics in the last years on an IEEE Journal.

Application process and requirements for 2018 award:

- Deadline for application is 15th of April, 2018
- Applicants should be Members of the IEEE Italy Section and of the IEEE Magnetics Society
- Applicants should be under-graduate students, PhD students or post-docs
- Application has to be sent via e-mail to the Chair of the IEEE Magnetics Society – Italy Chapter, prof. Bruno Azzerboni (azzerbonib@unime.it)
- The application has to include a detailed CV, including date of birth and information about IEEE membership, and a scientific paper:
 - The applicant must have first authorship in the paper
 - The paper should be an original research work in the field of magnetism which has been already published on an IEEE journal during the years 2016-2017
- The Commission which will select the 2018 award winner is composed by **prof. Zhongming Zeng (Suzhou Institute of Nano-tech and Nano-bionics, China), prof. Ozhan Ozatay (Bogazici University, Turkey), prof. Eduardo Martinez (University of Salamanca, Spain)**. The Commission will evaluate the applicants, based on a set of criteria, including the relevance of the work, its scientific impact, the relevance of the Journal.
- Results of the selection will be communicated to applicants by the 15th of May.
- The award will consist of €500 and a plaque addressed to the researcher. The winner researcher will also have the opportunity to give a talk about the submitted paper during the “Annual Meeting of the IEEE Magnetic Society – Italy Chapter” , 3-6 June 2018 Gioiosa Marea (Messina), Italy.
